EDUCATION

Bachelor of Science - Computer Science (GPA: 3.64)   December 2023
New Mexico State University   Las Cruces, NM

WORK EXPERIENCE

Software Developer Intern - Steele Consulting   Summer 2022
El Paso, Texas
- Trained to be a Full Stack Developer, learned Angular Framework for TypeScript, how to work with databases using PostgreSQL, and how to create APIs.
- Trained in Android development using Android Studio with Kotlin, to be placed on a team to develop an app for another company.
- Trained in using GitHub and with working in a group development environment. Developed programs and websites with team members.

Webmaster - New Mexico State University Honors College   2021-current
Las Cruces, New Mexico
- Updated, maintained, and debugged the website for New Mexico State University's Honors College.
- Coordinated with management to create forms, programs, and web pages used in promoting and applying for New Mexico State University's Honors and Internship Programs, and Capstone services.
- Maintained and implemented new technology throughout the Honors College, including setting up computers, televisions, and projectors, as well as assisting colleagues with technology problems.

Climbing Wall Attendant - New Mexico State University Activity Center   2023-current
Las Cruces, New Mexico
- Collaborated with team members to maintain, clean, and operate the campus rock climbing wall.
- Helped run summer camps, teaching teenagers and younger children how to rock climb.

ACTIVITIES

Sandia National Laboratories: TracerFIRE Forensics Competition - 1st place   2022
Socorro, New Mexico
- Competed with other teams in a cybersecurity based competition, using Arkime, Velociraptor, and other digital forensics software to earn points and learn about how to manage cyber attacks.

Steele Consulting Game Jam - 1st place   2022
El Paso, Texas
- Competed with other teams to develop a playable game using Angular, TypeScript, SCSS, and HTML. Involved working with teammates under time pressure, alternating roles in a pair programming format.

TSA Game Development Competition   2020
- Competed with other teams to develop a playable game, done with a partner.
